

SUMMER RAIN

A
My baby don't take sugar in her coffee
A
She's sweet enough as it is
D
Don't need to put no sugar in her coffee
D
She's plenty sweet the way she is
E
Me, I get a sugar high
D A
Every time we kiss

A
My baby, she don't wear no diamonds
A
She got the sparkle in her eyes
D
No need for any fancy diamonds
D
All the stars are in her eyes
E
I gaze into those constellations
D A
And just about go blind

D
She don't need no fire in the fireplace
A
The room warms up when she walks in
D
She unto herself is a fireplace
A
I warm right up when she walks in
E
The kind of heat that she gives off
G#dim
Makes me wanna shed my skin

A
My baby, she don't wear no perfume
A
Her skin smells like summer rain
D
No need for any stinkin' perfume
D
Her scent is sweet like summer rain
E
I hold her tight, close my eyes
D A
And all my pain is washed away
